

Panasonic Voice Mail Systems

Panasonic KXT Voice Mail

Features marked * are only available on the KXTD816 or KXTD1232 control units.

Panasonic KXTVS50 2-Port Voice Processing System Finally, an affordable voice processing system. Equipped for 2 ports (non-expandable), 32 mailboxes, 2 hours recording time. Expandable to 4 hours with KXTVS52 (below). Ultra-reliable, uses Flash Memory instead of a hard disk drive. Automated Attendant Service, Live Call Screening*, Remote Live Call Screening*, Voice Mail Service (32 mailboxes max.), Custom Service Scripts, Interview Service (10 questions/mailbox), Multi-lingual Voice Prompts, Paging Notification with Callback Number, Automatic Fax Call Transfer, In-band Integration, Quick Setup for KX-T, KX-TA and KX-TD systems, Remote and On-Site Administration, (External Modem Required), Caller ID Name Announce, Caller ID Call Routing, Personal Greeting or Caller ID, Manual included.

Panasonic KXTVS52 2-hour Expansion Expands the KXTVS50 from 2 hours to 4 hours storage.

Panasonic KXTVS75 2-Port Voice Processing System

Configured for 2 ports, 6 hours of voice storage. Non-expandable.
Features: Automated Attendant Service, Live Call Screening*, Remote Live Call Screening*, Voice Mail Service (64 Mailboxes), Intercom Paging*, Custom Service Scripts, Interview Service (10 questions/mailbox), Multi-lingual Voice Prompts, Paging Notification with Callback Number, Automatic Fax Call Transfer, In-band Integration, Quick Setup for KXT series hybrid and Digital Super Hybrid systems, Remote and On-Site Administration, (External Modem Required), Manual included. 110-volts, 20 Watts, 0.3 Amps, 36 VA.

Panasonic KXTVS100 4-Port Voice-Processing System

Configured for 2 ports, 6 hours voice storage. Expandable to 4 ports with the addition of the KXTVS102 port expansion card. Same features as the KXTVS75 above. 110-volts, 38 Watts, 0.4 Amps, 48 VA.

2-Port Expansion Card Expands KXTVS100 and KXTVS200 by 2 ports.

KXTVS200 12-Port Voice-Processing System

Configured for 0 ports, 32 hours voice storage. 3 expansion card slots for either KXTVS204 or KXTVS102 expansion cards. Expandable to maximum 12 ports with DPITS with addition of 3 KXTVS204 cards or 2 KXTVS102 and 1 KXTVS204. Same features as above, with the exception of 1024 mailboxes maximum. 110-volts, 80 Watts, 0.7 Amps, 84 VA.

4-Port Expansion Card Provides 4-Ports for the KXTVS200. You can use 3 of these to make the KXTVS200 handle up to 12 ports.

PanaVOICE™

The PanaVOICE® Voice Processing solution is the perfect choice to handle all of your automated attendant and voice messaging needs for the DBS phone system. The system offers a wide array of features designed with tight integration in mind. The PanaVOICE® includes a specially designed voice board that integrates with DBS digital extension ports. This unique design eliminates traditional analog connectivity, and allows the two systems to communicate more efficiently.

The PanaVOICE® can also be configured with the DBS's PAPI (Panasonic Applications Processing Interface) card to provide a full communications digital link. The PAPI integration provides display messages to our popular Large Screen Display Telephone, making it easier to navigate through the features with one touch control.
